

**1832 Petition Signatures and
growing.....**

***It's still about our water
that grows more scarce by the day.***

As our water district expands with the completion of the current development, we inch closer to the critical number of 3,000 water hook-ups which will move our water district to an Urban Water District. With this change comes more regulations and upgrades, along with the requirement of an emergency water back-up plan. Having an emergency back-up plan is important and should be a high priority for our community. We wonder why such a plan is not in place already, and hope the CSD Board will prioritize the development of an emergency water back-up plan in the coming year.

SAVE THE DATE
SOLOS Fundraiser and Rally
Monday, Oct. 14th 4:00 pm to Closing
at the Backyard
Eat in or do take-out.

- Petitions will be available to sign and updated info shared.
- The Backyard grants 20% of its sales to SOLOS. What a great community partner.
- Bring your friends and neighbors and help us reach 2000 signatures!!
